Study on a *Global Exchange*

CENTER FOR
GLOBAL ENGAGEMENT

Global Exchanges provide a unique and affordable study abroad option at 40+ international partner universities.

Academic credit earned at the host university transfers to the student's FSU transcript and can count toward General Education, Liberal Studies, and Major/Minor requirements.

Students pay FSU tuition and fees and use their financial aid while studying at the host university. Exchange scholarships are available.

"An exchange is the number one way to immerse yourself in another culture ... I've grown so much since my adventure."

Lucy Habel
Sookmyung University
South Korea

College students should gain an understanding of societies & countries outside the U.S.

* Statistics are based on a national survey of businesses and non-profits.
