Contact the Center for Global Engagement for current information regarding USCIS processing times. We can submit an H petition up to 6 months in advance of a start date. If the foreign national already holds H-1B status, you may employ him/her as soon as we file the petition and FSU receives the I-797 receipt from USCIS.

**FSU VISA/EXPORT REVIEW for H-1B Applicants**

**OVERVIEW OF EXPORT CONTROL REQUIREMENT FOR H-1B**

In support of your request for H-1B sponsorship, the Center for Global Engagement (CGE) is required to certify on the USCIS I-129 petition whether or not a license for export controlled technology or technical data is necessary for the individual being sponsored. To facilitate this requirement, we ask your assistance in completing the questionnaire below, which will allow CGE to begin filing H-1B support. In addition, the Office of Research Compliance Programs (ORCP) will review the form and if necessary will confer with the sponsored-individual and appropriate supervisor or administrator to determine whether a license under EAR or ITAR would be required. The license acquisition process would be initiated in parallel to H-1B sponsorship. Any future changes or extensions of the sponsored H-1B worker’s employment must also be reviewed for compliance. For more information about Export Control, visit <https://www.research.fsu.edu/research-compliance/export-controls/>.

This questionnaire must be answered by the faculty member sponsoring the visa applicant/beneficiary, and may not be delegated to another individual acting on his or her behalf.

## DETERMINATION OF ACTUAL WAGE

The U.S. Department of Labor requires employers who are hiring H-1B employees to confirm that they will pay non-immigrants at least the local prevailing wage or the employer's actual wage, *whichever is higher*. The actual wage is the wage rate paid by the employer to all other individuals with experience and qualifications similar to those of the H-1B nonimmigrant for the specific employment in question.

The employer is required to **establish** and **document** the actual wage rate. Information must be available for public examination and for Department of Labor inspection. The inspection files are kept at the Center for Global Engagement. To comply with the actual wage requirement, please complete the section below and attach the Determination of Actual Wage Worksheet or other supporting documentation.

**PLEASE CHECK ONE:**

There are no employees in the department with the job title and/or basic job duties of *(name of foreign national)* . This position is unique because

The actual wage rate is the salary offered to the H-1B employee.

Signature: \_\_\_\_\_ *(Department Chair or Director)*

There are *(number)*  other employees in the *(name of department)*  with the job title and duties of *(job title)*

The wage range for those employees is \$  to \$ . Within this range an individual salary is determined by taking various factors into consideration. The factors used to determine the salary for individuals in the position of are:

**I am attaching documentation to show how the department identified similarly-employed workers with similar education and experience and how this wage rate was determined.** (This information is required by the Department of Labor.) It should consist of a list of employees in the **same job classification and their salaries, plus an explanation of how the salaries were set. The salary of the H-1B worker cannot be lower than all of the other employees in the same classification because regulations require the employer to pay the prevailing wage OR the actual wage, whichever is higher.**

Signature: \_\_\_\_\_ *(Department Chair or Director)*

*NOTE:* Some factors that the department can consider when determining an employee's salary are:

- |                                  |   |
|----------------------------------|---|
| - experience                     | - specialized knowledge/skills              |
| - qualifications                 | - publications                              |
| - education                      | - other objective business-related criteria |
| - job responsibility/supervision |   |

According to NAFSA: Association of International Educators: "The Department of Labor has made it quite clear that for actual wage purposes it is unacceptable to set a wage based solely on the salary level set by a grant. The *can't* afford it argument holds little water in the face of a Department of Labor audit." In addition, if a similarly employed individual has a higher than average salary because of a certain grant, the salary of that individual cannot be left out of the wage range if the duties, education, and experience of the employee are similar to that of the H-1B employee (note from the H-1B Handbook, 2000 Edition by Austin T. Fragomen, Jr. and Steven C. Bell).

## DETERMINATION OF ACTUAL WAGE SAMPLE WORKSHEET

*Note: This is a sample only. Your documentation can include other objectives, relevant factors used to determine wages.*

Federal regulations related to the H-1B application require employers to provide written documentation that illustrates how the employer determined the actual wage. The documentation must show how the wage set for the H-1B non immigrant relates to wages paid by the employer to all other individuals with similar experience and qualifications for the specific employment in question at the place of employment. (NAFSA: Association of International Educators Adviser's Manual 2004) To determine if you are offering at least the actual wage to the potential H-1B employee, please fill out the chart below, or create your own. You could choose to prepare a detailed memo that explains the compensation system, as long as it is detailed enough so that a third party could calculate the actual wage for an employee.

The actual wage may be a wage range, rather than one specific salary, but the documentation should clearly show how the wage offered to the H-1B worker fits in the wage range offered to similarly employed workers.

The Center for Global Engagement must include the actual wage documentation in files required by the U.S. Department of Labor. When we submit a Labor Condition Application (a required part of an H-1B application) we attest that the university will pay either the prevailing wage or the actual wage, whichever is higher.

Include employees in positions with similar responsibilities and job classifications. Modify the chart as needed, to add employees and/or to reflect objective factors used to determine wages in your department.
